Bromodeoxyuridine (BrdU)

# Section 1. Identification

| Product identifier   | : Bromodeoxyuridine (BrdU)   |
|--|--|
| Product code   | : 423401   |
| Other means of<br>identification                           | : Broxuridine  |
| Product type   | : Liquid.  |
| Relevant identified uses of the                            | he substance or mixture and uses advised against   |
| Product use  | : Research.  |
| Area of application  | : Industrial applications.   |
|  |  |
| Manufacturer   | : BioLegend Inc.<br>8999 BioLegend Way<br>San Diego, CA 92121 – USA<br>Tel: +1-858-455-9588 (7:00AM – 5:00PM PT, M-F)  |
| Supplier's details   | : RSM Australia Pty Ltd – On Behalf of BioLegend, Inc.<br>Level 21, 55 Collins Street Melbourne VIC 3000<br>PO Box 248, Collins Street West VIC 8007<br>Phone: +61 (0) 3 9286 8040<br>Fax: +61 (0) 3 9286 8199 |
| e-mail address of person responsible for this SDS          | : cs@biolegend.com   |
| Emergency telephone<br>number (with hours of<br>operation) | : +61 (0) 3 9286 8040 (24 hours)   |

#### Section 2. Hazard(s) identification **H**340 **Classification of the GERM CELL MUTAGENICITY - Category 1** substance or mixture **GHS** label elements **Hazard pictograms** Signal word : DANGER **Hazard statements** : H340 - May cause genetic defects. **Precautionary statements Prevention** : P201 - Obtain special instructions before use. P280 - Wear protective gloves, protective clothing, eye protection, face protection, or hearing protection.

| Response                       | : ₱308 + P   | 313 - IF exposed or concer | med: Get medical ad | lvice or attention. |      |
|--------------------------------|--------------|----------------------------|---------------------|---------------------|------|
| Date of issue/Date of revision | : 09/01/2024 | Date of previous issue     | : 28/12/2016        | Version : 2         | 1/11 |

# Section 2. Hazard(s) identification

| Storage                     | : Not applicable.  |
|-----------------------------|--|
| Disposal                    | <ul> <li>P501 - Dispose of contents and container in accordance with all local, regional,<br/>national and international regulations.</li> </ul> |
| Supplemental label elements | : Not applicable.  |

Other hazards which do not : None known. result in classification

# Section 3. Composition and ingredient information

| Substance/mixture | : Mixture     |
|-------------------|---------------|
| Other means of    | : Broxuridine |
| identification    |               |

| Ingredient name | % (w/w) | CAS number |
|-----------------|---------|------------|
| proxuridine     | <3      | 59-14-3    |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

The total concentration of ingredients in this product, reported or not in this section, is 100%.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

# Section 4. First aid measures

#### Most important symptoms/effects, acute and delayed

| Potential acute health effe | <u>cts</u> |   |
|-----------------------------|------------|---|
| Eye contact                 | :          | No known significant effects or critical hazards.   |
| Inhalation                  | :          | No known significant effects or critical hazards.   |
| Skin contact                | :          | No known significant effects or critical hazards.   |
| Ingestion                   | :          | No known significant effects or critical hazards.   |
| Over-exposure signs/symp    | ptom       | <u>15</u>   |
| Eye contact                 | :          | No specific data.   |
| Inhalation                  | :          | No specific data.   |
| Skin contact                | :          | No specific data.   |
| Ingestion                   | :          | No specific data.   |
| ndication of immediate me   | dica       | l attention and special treatment needed, if necessary  |
| Notes to physician          | :          | In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br>The exposed person may need to be kept under medical surveillance for 48 hours.  |
| Specific treatments         | 1          | No specific treatment.  |
| Protection of first-aiders  | :          | No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

#### See toxicological information (Section 11)

### Section 5. Firefighting measures

| Extinguishing media                           |   |
|---|---|
| Suitable extinguishing media                  | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                | : Do not use water jet.   |
| Specific hazards arising<br>from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products      | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>nitrogen oxides<br>halogenated compounds<br>carbonyl halides                            |
| Special protective actions for fire-fighters  | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |

| Date of issue/Date of revision | : 09/01/2024 | Date of previous issue | : 28/12/2016 | Version : 2 | 3/11 |
|--------------------------------|--------------|------------------------|--------------|-------------|------|

# Section 5. Firefighting measures

| Special protective          | 1 | Fire-fighters should wear appropriate protective equipment and self-contained   |
|-----------------------------|---|---|
| equipment for fire-fighters |   | breathing apparatus (SCBA) with a full face-piece operated in positive pressure |
|                             |   | mode.   |
| Remark                      | 1 | Kvoid high temperatures. Keep away from heat and direct sunlight.               |

### Section 6. Accidental release measures

| Personal precautions, protec   | ctiv | e equipment and emergency procedures  |
|--------------------------------|------|---|
| For non-emergency<br>personnel | :    | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Avoid breathing vapour or<br>mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
| For emergency responders       | :    | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | :    | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).   |
| Methods and material for co    | ntai | nment and cleaning up   |
| Small spill                    | :    | Stop leak if without risk. Move containers from spill area. Dilute with water and mop<br>up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry<br>material and place in an appropriate waste disposal container. Dispose of via a<br>licensed waste disposal contractor.  |
| Large spill                    | :    | Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows.   |

Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

# Section 7. Handling and storage

#### Precautions for safe handling

| Protective measures                       | : Put on appropriate personal protective equipment (see Section 8). Avoid on obtain special instructions before use. Do not handle until all safety precare have been read and understood. Do not get in eyes or on skin or clothing ingest. Avoid breathing vapour or mist. If during normal use the material respiratory hazard, use only with adequate ventilation or wear appropriate Keep in the original container or an approved alternative made from a commaterial, kept tightly closed when not in use. Empty containers retain proceeding and can be hazardous. Do not reuse container. |  |  |  | a   |

# Section 8. Exposure controls and personal protection

#### Respiratory protection

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Date of issue/Date of revision

# Section 11. Toxicological information

#### Specific target organ toxicity (repeated exposure)

Not available.

#### **Aspiration hazard**

Not available.

# **Information on likely routes** : Routes of entry anticipated: Oral, Dermal, Inhalation, Eyes. **of exposure**

#### Potential acute health effects

| Eye contact  | : No known significant effects or critical hazards. |
|--------------|---|
| Inhalation   | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion    | : No known significant effects or critical hazards. |

#### Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact  | : No specific data. |
|--------------|---------------------|
| Inhalation   | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion    | : No specific data. |

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

| <u>Short term exposure</u>    |   |
|-------------------------------|---|
| Potential immediate effects   | : Not available.                                    |
| Potential delayed effects     | : Not available.                                    |
| <u>Long term exposure</u>     |   |
| Potential immediate effects   | : Not available.                                    |
| Potential delayed effects     | : Not available.                                    |
| Potential chronic health effe | ects  |
| General                       | : No known significant effects or critical hazards. |
| Carcinogenicity               | : No known significant effects or critical hazards. |
| Mutagenicity                  | : May cause genetic defects.                        |
| Reproductive toxicity         | : 📈 known significant effects or critical hazards.  |

#### Numerical measures of toxicity

#### Acute toxicity estimates

| Product/ingredient name | Oral (mg/<br>kg) | Dermal<br>(mg/kg) |     | (mg/l) | Inhalation<br>(dusts<br>and mists)<br>(mg/l) |
|-------------------------|------------------|-------------------|-----|--------|--|
| proxuridine             | 8400             | N/A               | N/A | N/A    | N/A  |

| Date of issue/Date of revision | : 09/01/2024 | Date of previous issue | : 28/12/2016 | Version : 2 | 8/11 |
|--------------------------------|--------------|------------------------|--------------|-------------|------|

# Section 12. Ecological information

#### **Toxicity**

**Conclusion/Summary** : Not available.

#### Persistence and degradability

**Conclusion/Summary** : Not available.

#### **Bioaccumulative potential**

| Product/ingredient name | LogPow | BCF | Potential |
|-------------------------|--------|-----|-----------|
| proxuridine             | -0.29  | -   | Low       |

#### Mobility in soil

| Soil/water partition | : Not available. |
|----------------------|------------------|
| coefficient (Koc)    |                  |

# Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimised wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation and<br>any regional local authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be disposed of<br>untreated to the sewer unless fully compliant with the requirements of all authorities<br>with jurisdiction. Waste packaging should be recycled. Incineration or landfill<br>should only be considered when recycling is not feasible. This material and its<br>container must be disposed of in a safe way. Care should be taken when handling<br>emptied containers that have not been cleaned or rinsed out. Empty containers or |
|------------------|--|
|                  | liners may retain some product residues. Avoid dispersal of spilt material and runoff<br>and contact with soil, waterways, drains and sewers.  |

# Section 14. Transport information

# Section 14. Transport information

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

# Section 15. Regulatory information

Standard for the Uniform Scheduling of Medicines and Poisons

Not regulated.

Model Work Health and Safety Regulations - Scheduled Substances

No listed substance

Australia inventory (AIIC) : Not determined.

**International regulations** 

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

**Montreal Protocol** 

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC) Not listed.

**UNECE Aarhus Protocol on POPs and Heavy Metals** 

Not listed.
