

**MojoSort<sup>™</sup> Human Naïve B Cell Isolation Kit**

A single cell suspension from human peripheral blood mononuclear cells (PBMCs) was prepared to isolate Naïve B cells using the MojoSort<sup>™</sup> Human Naïve B cell Isolation Kit. Cells were stained with CD19 (clone HIB19) APC and IgD (clone IA6-2) Brilliant Violet 421<sup>™</sup>. Dead cells were excluded by 7-AAD.
